Alberto Zúñiga Marinovic

Computer Science Engineer
Universidad de los Andes, Chile
+56 9 6496 2736 · a.zuniga.marinovic@gmail.com · LinkedIn · GitHub · Portfolio

Experience

Buk Mar 2026 – Present
Software Engineer Level 1, Talent - Evaluations team

- Development and maintenance of the platform's **Performance Evaluations** module.

Buk Jan 2026 – Feb 2026
Software Engineer intern, Talent - Evaluations team

- Migration of the **"My evaluations"** section to **Fiji**, Buk's internal development framework.

Universidad de los Andes Aug 2022 – Jun 2026
Teaching Assistant

- **14 assistantships across 9 courses:** Programming Paradigms (×4), Web Technologies (×3), Programming (×2), Databases, Mobile Applications, Electronic Systems, Computing Workshop, Engineering Projects Workshop.

Projects

Arbocensus *Django/GeoDjango, PostGIS, OR-Tools, Celery, React* View project

- **Thesis project:** route optimization for urban tree census teams, modeled as an mTSP with per-route time constraints and load balancing, solved with OR-Tools VRP over real pedestrian times from OSRM.
- Django + PostGIS backend with asynchronous jobs in Celery/Redis; React SPA with a Leaflet map. Docker Compose, CI/CD with GitHub Actions and deployment on DigitalOcean.

Scheduler App *Python, Flask* View project

- Schedule management and automatic group splitting.

Healthy *Ruby on Rails* View project

- Healthy meal plan recommendation system integrated with purchases.

Education

Universidad de los Andes 2020 – 2026
Computer Science Engineer (Ingeniero Civil en Ciencias de la Computación)

- Technological concentration in Electrical Engineering. Minor in Psychology.

Leadership and volunteering

Pastoral Universidad de los Andes 2025 – 2026
Catechist (2025 – 2026) and logistics lead (2026)

- Logistics management and organization of the group's activities.
- Planning and teaching weekly formation classes.

Engineering Student Council Member: representative to the Student Federation. 2023

Fundación Nueva Mente: pro bono volunteer; website (Wix) and expense tracking. 2022 – 2024

Skills

Languages	Python, JavaScript, Ruby, SQL, C++, HTML/CSS
Frameworks	React, React Native, Flask, Django, FastAPI
Tools	Git/GitHub, Docker, PostgreSQL/PostGIS, OR-Tools, Celery, LaTeX, Excel
Spoken	Spanish (native), English (intermediate)
